PROFESSIONAL SUMMARY

Senior IT student at PTIT with a strong focus on building high-performance web applications using **ReactJS** and **Next.js**. Proficient in **TypeScript** and modern Frontend workflows. Passionate about 3D web experiences using **Three.js** and experienced in full-stack integration with Spring Boot and .NET frameworks.

TECHNICAL SKILLS

- **Frontend:** ReactJS, Next.js (SSR/CSR), TypeScript, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- **3D & Graphics:** Three.js, WebGL basics, Space Geometry Visualization
- **State & Tools:** Hooks, Context API, Redux, Git/GitHub, Vite.js, npm/yarn
- **Backend & API:** RESTful API Integration, Node.js, .NET Framework basics, Java (Spring Boot)
- **Deployment:** Docker, AWS (EC2), VPS Management, Cloudflare Tunneling, Vercel

TECHNICAL PROJECTS

- **Personal Portfolio** 2026
Next.js & Three.js [Live Demo](#)
 - Built a modern, interactive portfolio using **Next.js** and **Three.js** for 3D element rendering.
 - Optimized 3D models for web performance, ensuring smooth navigation and user experience.
 - Implemented responsive UI and dark/light mode functionality.
- **Kanban Task Management** 2025
Next.js & TypeScript [Github](#)
 - Developed a productivity application using **Next.js** and **TypeScript** for type-safe development.
 - Implemented drag-and-drop functionality and efficient state management for real-time task updates.
 - Optimized **SEO** and page load speed using Next.js App Router and Server Components.
- **Gold Decor Website** May 2025 - Jun 2025
Commercial Production Project [Website](#)
 - Performed full SDLC: Collected business requirements and designed technical specifications for a real client.
 - Developed a high-performance frontend using **Vite.js** and **React** for optimized build times.
 - Provisioned and managed a **VPS** to host the application via Cloudflare's secure tunneling technology.
 - **Achievement:** Successfully launched a secure, live commercial website for a decoration business.
- **Find Anyone Online** Oct 2024 - Feb 2025
Spring Boot & ReactJS [Github](#)
 - Developed a full-stack system using **ReactJS** for the dashboard and Spring Boot for the backend.
 - Collaborated on **API Integration** to handle real-time data processing and face detection results.
 - Containerized the application with **Docker** for consistent development and production environments.

EDUCATION

Degree	Institute	GPA	Year
B.E. in IT	Post and Telecommunications Institute of Technology (PTIT)	3.0/4.0	2022 - 2027

- **Academic Results:** Data Structures & Algorithms (A), Web Development (A), OOP (A+), C++ (A+).

INFRASTRUCTURE & CERTIFICATIONS

- **Git & GitHub,** Proficient in branching strategies, Pull Requests, and version control management.
- **Technical English,** Capable of reading and understanding complex technical documentation.
- **TOEIC 600 Target,** Currently studying for official certification (Expected 2026).
