

NGO QUANG MINH

JAVA API ENGINEER | BACKEND & FULL-STACK SYSTEMS

An Khánh, Ho Chi Minh City, Vietnam • (+84) 384 194 364 • quangminh.it.59@gmail.com • GitHub • LinkedIn • Portfolio Website

PROFESSIONAL SUMMARY

Pragmatic and results-oriented Software Engineer specializing in **Java (Spring Boot)**, **Microservices Architecture**, and **Cloud Infrastructure (AWS, Docker)**. Hands-on experience developing low-latency REST APIs, payment gateways, and event-driven microservices (RabbitMQ, Redis) in commercial environments. Demonstrated capability in building high-availability banking and F&B POS systems supporting multi-billion VND transaction volumes. Skilled in leveraging AI tools (Claude Skills, AI workflows) to accelerate technical delivery while maintaining clean architecture, code quality, and strict security standards under Agile/Scrum.

TECHNICAL EXPERTISE

Backend & Frameworks: Java 21, Spring Boot 3, NestJS, Node.js, Spring Security, RESTful APIs, Microservices, M2M Internal Auth, RSA Token Signing.

Frontend & UI: React, Vite, TanStack (React) Query, Next.js, TypeScript, Tailwind CSS.

Databases & Caching: PostgreSQL, MySQL, Redis (Caching & Session), Firebase, SQL Server, Schema Optimization.

Cloud, Messaging & Tools: AWS (EC2, ECS, S3), Docker, Kong API Gateway, RabbitMQ (Outbox Pattern), Git/GitHub, Claude AI Skills & Vibe Coding.

WORK EXPERIENCE

Mekong Technology — Full-Stack Engineer Intern

6 Months Internship

Tech Stack: NestJS, React, Vite, React Query, Redis, PostgreSQL, MySQL, Firebase, Claude Skills

- Participated in developing and scaling a commercial **F&B POS Ordering & Payment System** handling real-time order processing, table management, and payment integration.
- Built robust backend REST APIs using **NestJS** with **Redis** for high-speed caching and session management across **PostgreSQL** and **MySQL** databases.
- Developed responsive frontend client interfaces using **React**, **Vite**, and **TanStack React Query** for seamless state management and instant UI updates.
- Integrated **Firebase** real-time synchronization and notification features for instant kitchen display order alerts.
- Leveraged **Claude AI Skills** and advanced prompt engineering to streamline API generation, speed up feature delivery, and optimize system refactoring.
- Business Impact:** Contributed to the tech stack supporting the POS platform that achieved **1.3 Billion VND** in gross sales revenue within the first 6 months.

KEY TECHNICAL & MICROSERVICES PROJECTS

MindCare — Psychological Counseling Microservices System

Jan 2026 – Present

Tech Stack: Java 21 (Spring Boot 3), Go (Gin), Kong Gateway, PostgreSQL 16, Redis 7, RabbitMQ, Docker, Outbox Pattern

- Architected a multi-language microservices backend behind **Kong API Gateway**, featuring centralized RSA-signed **JWT Auth & M2M Security** for secure API delivery.
- Engineered the **Auth Service** using **Spring Boot 3 & Java 21**, issuing internal M2M tokens, managing RBAC roles, and enforcing strict internal route protection (`/internal/*`).
- Implemented event-driven synchronization using **RabbitMQ** and the **Transactional Outbox Pattern** to guarantee ACID transaction consistency between payment processing and appointment slot locking.

Mask Detection & Warning System (AWS Deployed)

Sep 2025 – Oct 2025

Tech Stack: ResNet-50, SVM, AWS EC2, Docker

- Engineered a hybrid classification pipeline using ResNet-50 feature extraction combined with SVM. Containerized with **Docker** and deployed scalable processing nodes on **AWS EC2**.

Find Anyone Online — Facial Recognition System

Oct 2024 – Feb 2025

Tech Stack: Java (Spring Boot), React, FaceNet, Docker, Vector Matching

- Built high-performance backend REST services with **Spring Boot** for real-time high-dimensional facial embedding extractions and vector matching.

EDUCATION & QUALIFICATIONS

Post and Telecommunications Institute of Technology (PTIT)

2022 – 2027

Bachelor of Engineering in Information Technology (Senior Student) | GPA: 3.0 / 4.0

- Core Academic Excellence:** Java (4.0/4.0), C++ (4.0/4.0), Object-Oriented Programming (3.7/4.0), Database Systems, Distributed Systems.
- Certifications & English:** Cisco Certified Network Associate (CCNA Knowledge) | Active TOEIC Preparation (Target 600+).
